

NATIONAL ROOFING CONTRACTORS ASSOCIATION

information

education

technology

advocacy

The National Roofing Contractors Association (NRCA) is one of the construction industry's most respected trade associations, the voice of roofing professionals, and the leading authority in the roofing industry for information, education, technology and advocacy. NRCA's mission is to inform and assist the roofing industry, act as its principal advocate and help members serve their customers.

MEMBERSHIP

Membership in NRCA is widely recognized as a mark of commitment to and achievement in the roofing industry. Representing all industry segments, NRCA is an advocate for member firms of all sizes. NRCA members receive invaluable services to help achieve a competitive advantage, as well as programs, products and services to improve and protect their interests.

EDUCATION

NRCA University offers technical programs, safety training, professional development and other educational opportunities to NRCA members, roofing professionals, manufacturers, architects, consultants, building owners, facility managers and anyone with an interest in the roofing industry. Programs are offered in various U.S. cities and can be customized and delivered at a company's office or preferred location.

NRCA'S ANNUAL CONVENTION

Held during the International Roofing Expo,[®] NRCA's annual convention is the largest gathering of the roofing industry in North America and a networking opportunity for roofing professionals from around the world. Attendees have the opportunity to view the newest industry products, equipment and services and learn from leading industry experts. In addition, attendees acquire vital, practical information that can immediately be put to use.

TECHNICAL SERVICES

NRCA is the premier source for roofing-related technical information. Expert professional staff and leading roofing professionals develop NRCA's technical publications, participate in roofing-related standards and building code development, and provide technical support to members and the roofing industry.

RELATED ORGANIZATIONS

ROOF INTEGRATED SOLAR ENERGY™

RISE™ evaluates and certifies solar roofing professionals to support the widespread use of rooftop solar energy. Solar energy installers are certified for knowledge of roof system construction and maintenance practices necessary to support successful rooftop solar installations without adversely affecting roof system performance and service life. RISE also provides tools to identify skilled rooftop solar energy professionals.

The Roofing Industry **ALLIANCE** for Progress

THE ROOFING INDUSTRY ALLIANCE FOR PROGRESS

The Roofing Alliance for Progress is an endowment fund that conducts research and educational projects that support programs for roofing contractors; ensures forward-thinking industry responses to major economic and technological issues; and enhances long-term viability and attractiveness of the industry to roofing workers.

NATIONAL ROOFING LEGAL RESOURCE CENTER

NRLRC helps reduce roofing contractors' legal fees by developing strategies and delivering products and services to enable them to successfully manage and respond to legal issues affecting their businesses. All NRCA contractor members also are NRLRC members and receive access to expert legal help, key contract provisions, monthly legal guides, state licensing information, and discounts on legal publications and educational events.

PUBLICATIONS

- *Professional Roofing*, NRCA's official publication, provides readers with timely, useful information to help every roofing professional succeed. *Professional Roofing's* tablet edition gives readers the flexibility to access up-to-date industry information from wherever they are.
- The NRCA Roofing Manual, encompassing four volumes, is the most widely recognized publication in the roofing industry.
- NRCA publishes more than 100 publications and programs that provide the latest information about a variety of topics, including roof system technology, health and safety, worker training, business management, Spanish-language programs and more.
- NRCA E-News, NRCA's weekly electronic newsletter, shares the latest news and events highlighting NRCA and member achievements and industry current events. To receive NRCA E-News, go to www.nrca.net/Account/Register.

WORLDWIDE PRESENCE

NRCA provides various opportunities worldwide for roofing industry peers to share information and stay informed about industry news and events occurring throughout the world. In 2011, NRCA launched NRCA India to help develop roofing-related codes and standards, educational programs and training materials for roofing, design and building owner communities India. In addition, NRCA co-sponsors several international events, including the China Roofing and Waterproofing Expo and ROOF India.

GOVERNMENT ADVOCACY

NRCA's government advocacy program advances the roofing industry's public policy agenda; NRCA's Washington, D.C., staff works closely with legislators and officials from the federal government to address key roofing industry issues and produces congressional testimony and other advocacy materials. ROOFPAC, NRCA's political action committee, is funded through voluntary contributions from NRCA members and serves to increase the voice of the roofing industry in Washington, D.C.

ENTERPRISE RISK MANAGEMENT

NRCA's Enterprise Risk Management Section monitors health, safety, insurance, legislative and regulatory issues affecting the roofing industry.
